Jonathan Levy, Amelia Kovacs, Meghan Ibach, Liz Chapman, Jamie Harkins, Brian Loma, Meghan Wiebe,  
Kendra Appelman-Eastvedt, Rob Writz, Lindsay Stovall, Nina Waysdorf,

### Agenda for May 2nd Meeting, 1:30pm-2:30pm

1. Announcement of Policy Committee Leadership Nominations

2. Policy Retreat Agenda - final review (will review [policy strategic plan](#))

Randy: We want to check in on the Strategic Plan. What do we need to change, what is missing, etc.  
Three major groups: Materials, C&D, Organics. We want to talk about 2025: Legislative priorities, non  
legislative priorities, and creating working groups.

3. Rural Working Group Report

Alicia: Chair is open, Two vice chairs, recorder, Board Liaison role is a board role. After this meeting  
the nominations will be sent out. If you are interested please reach out to the current people in  
those roles.

4. Producer Responsibility Update

1. JBC decision

2. Rule making

Liz Chapman: there has been stakeholder meetings for 8 months. The next major meeting is May 21st. Go to  
the solid and hazardous waste webpage to review the current rules/ regulations.

3. Next Steps in Implementation

The JBC voted 5-1 to accept the needs assessment for the middle scenario. Taggart voted yes. Kirkmeyer did  
not vote for this.

Milestone:

- Program Plan is the focus to Feb 2025. Advisory board, CDPHE, CAA. Attend the meetings. Come to  
the Summit.

5. HB24-1149 C3E (merger of RREO and FRWD)

Randy: This is now at Senate Finance. We expect things to go well in Senate Finance. It will go to  
appropriations next before it goes to the full Senate floor.

One amendment said that one of the seats on the board needed to be a non-front range community.  
Transferring money from the current program to the new program.

6. SB24-123 Waste Tires

Randy: Out of appropriations this morning and will go to the House floor tomorrow. Administrative changes  
at this point. The more robust and grant for recycling tires is still in it.

7. HB24-1069 Vapes bill

Rachel: It is effectively dead. It was supposed to make a study for viable recycling options. We want to look at another route for a study. Maybe C3E. The other part is the battery working group. If you want to join the battery working group Rachel sent out an email.

8. HB24-1121 Electronic Equipment Right to Repair

This is going to the Governor's desk. This is the first bill of its kind in the country. We want to recognize the groups that took part in this achievement.

Rural Working Group Report

Rachel Setzke:
