

Summit for Recycling

June 6-8, 2010
Steamboat Springs,
Colorado

Recycling's Road
to the Future

Welcome to the Summit for Recycling

Thank you for attending Colorado's 21st annual Summit for Recycling! It is our pleasure on behalf of Colorado Association for Recycling, the CAFR Board of Directors, the Summit Planning Committee and CAFR staff to welcome you to Steamboat Springs and the 2010 Summit! The next two days will provide a unique opportunity to bring together the energy and strengths of CAFR members and Summit attendees in a single event to network and strategize and, most importantly, to help build the future of recycling in the Rocky Mountain region TOGETHER. Whether you are a sponsor, exhibitor, speaker, moderator, attendee or volunteer, your participation in the next two days is critical to ensuring a successful Summit.

We offer a special 'thank you' to each of our sponsors and exhibitors. It is through your contributions that this Summit is possible and provides the most valuable environment for all attendees. And we want to thank each attendee for taking the time to make the trip to Steamboat Springs and for being here to assist in guiding the future of recycling in the Rocky Mountain region.

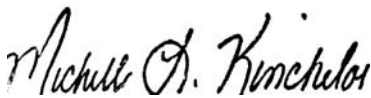

Recycling's Road to the Future

It's an exciting time for recycling in Colorado. In recent years we've seen legislation that for the first time provides significant funding for innovative waste diversion programs across the state. The number of Colorado communities offering curbside recycling, composting and pay-as-you-throw programs continues to grow, and key issues like electronics recycling, product stewardship and zero waste are commanding attention.

With all this positive momentum, it is time for us to look ahead and begin mapping the course for the future of recycling in Colorado. From informative break-out sessions on waste composition studies, social media, and regional methods for gathering and reporting diversion data to keynote presentations on waste management in our national parks and what the future has in store for the recycling industry, this year's Summit aims to get you up to speed and on the right track.

We encourage you to take full advantage of the sessions, tours, and networking opportunities provided over the next two days. Feedback is strongly encouraged to allow us to continue to build on the success of the Summit year after year.

Highest regards,

Michelle Kincheloe
Summit Planning Chair

Marjorie Griek
CAFR Executive Director

PS. Join us June 5-7, 2011, in Breckenridge, Colorado, for the 22nd annual Summit for Recycling!

Save the date!

Welcome to Steamboat Springs

The City of Steamboat Springs welcomes all CAFR Summit participants to a beautiful mountain hideaway! Steamboat offers incredible scenery, wonderful recreation facilities, and genuine western hospitality. There are so many places to see and activities to enjoy such as hiking or biking on our wonderful trail system, enjoying natural hot springs and swimming, taking in a round of golf, and great boating to highlight just a few. There is also fishing, hot air ballooning, horseback riding, shopping, art galleries, alpine slide, tennis, bird watching, historical tours, climbing, camping, and thousands of acres of National Forest activities adjacent to the city. While in Steamboat Springs, you can enjoy many, many different dining opportunities from fast food casual to resort fine dining with several great music venues. There is something for everyone in the family to enjoy and we are pleased to host your visit. We hope you will extend your conference stay either before or after the Summit! If I can assist you in anyway, please do not hesitate to contact me.

Wendy DuBord, Deputy City Manager
City of Steamboat Springs

Summit Planning Committee

Special Thanks to CAFR's Summit Planning Committee, who volunteered their time to plan and implement this event: Alicia Archibald, Cynthia Ashley, Hilary Collins, Herb Dreo, Wendy DuBord, Dave Epstein, Becky Goyton, Karen Hancock, Gary Horton, Michelle Kincheloe, Ron Lillich, Anne Mudgett, Don Roche, Emilie Rogers, Heather Savalox, and Liz Wahl. Additional thank-yous to CAFR staff, moderators and speakers, without all of their contributions, the Summit would not be possible.

Getting Around Steamboat Springs

Steamboat Springs Transit provides a free fixed-route transit service throughout the City of Steamboat Springs. Year-Round bus service is provided daily around town and between downtown and the Ski Resort Mountain Base area. Schedules are available at the Host Committee booth in the exhibit hall.

Carbon Offsets

CAFR is purchasing carbon offsets for the main portion of the conference. CAFR encourages all attendees to calculate and offset the emissions from your Steamboat Springs trip via the Colorado Carbon Fund. All contributions to the Fund support new clean energy projects in Colorado that reduce greenhouse gas emissions. www.coloradocarbonfund.org

The High Country

Remember to drink plenty of water, you're at an elevation of 6,695 feet.

Program Overview

Sunday, June 6

5:00pm Welcome Reception, Grand Ballroom

Monday, June 7

7:00am Registration
 7:00am Welcome and Breakfast, Grand Ballroom
 8:45am Morning Concurrent Workshops
 – Waste Composition Studies as a Tool to Expand Your Recycling Program
 – Electronics Recycling
 – Rocky Mountain Organics Council
 – Household Hazardous Waste
 11:00am Luncheon, Grand Ballroom
 – Keynote Speaker Jim Evanoff
 – Recycling Poster Contest Awards
 1:00pm Afternoon Concurrent Workshops
 – Product Stewardship
 – Sustainability in the National Parks Roundtable
 – Rocky Mountain Organics Council
 – Engaging Latinos in Zero Waste
 3:00pm Tour: Sustainability at the Steamboat Ski Area (\$10)
 6:00pm CAFR Fundraising Gala (\$40)

Tuesday, June 8

7:00am Registration
 7:00am Welcome and Breakfast, Grand Ballroom
 8:45am Concurrent Sessions I
 – Recycling Markets Forum
 – Social Media 101
 – Zero Waste Events & Venues: How To's and Lessons Learned
 9:00am CTEP Workshop: Hybrid, Electrification, and Idle Reduction
 10:30am Concurrent Sessions II
 – Community Recycling: Planning and Strategic Partnerships
 – Legislative Update
 – Zero Waste Business Case Studies
 12:00pm Luncheon, Grand Ballroom
 – Keynote Speaker Jerry Powell, Resource Recycling
 – 2010 Excellence in Recycling Awards
 2:00pm Concurrent Sessions III
 – Community Recycling: Single Stream Collection Systems and Education
 – Approaches to Measurement of MSW and Materials Management
 – The Many Faces of Reuse
 3:15pm Closing Remarks
 4:00pm Tour: Enviro Services Milner Landfill

Welcome Reception

Sunday Evening, Grand Ballroom

Join the CAFR Board of Directors, staff, Summit Planning Committee, sponsors, and exhibitors from 5:00pm to 7:00pm in the Grand Ballroom to kick off the conference in style!

Keynote Speaker

Jim Evanoff, Yellowstone National Park

Monday, June 7, 11:45am
 Evanoff will take attendees on a journey into the park's rich history of waste management and illustrate how Yellowstone has emerged as a leader in instituting creative recycling solutions.

Keynote Speaker

Jerry Powell, Resource Recycling

Tuesday, June 8, 12:45pm
 Powell is the owner of three recycling magazines and aids in the management of two annual conferences. Powell will share his perspective on the state of recycling in 2010 and beyond.

SWANA CEU Credits Available

CAFR and the Solid Waste Association of North America are partnering to offer Continuing Education Unit (CEU) credits for Summit for Recycling attendees. Information is available at the registration desk.

Summit Attendee List

The Summit for Recycling attendee list is being distributed electronically, in PDF format, after the conference.

Clean Transportation Energy Partnership Workshop

The Colorado Association for Recycling is partnering with Northern Colorado Clean Cities to host the Clean Transportation Energy Partnership (CTEP) Workshop, "Hybrids, Electrification and Idle Reduction," on Tuesday, June 8. This workshop will attract additional attendees looking for transportation and alternative fuel information. Northern Colorado Clean Cities (NCCC) is a Colorado non-profit coalition made up of member fleets, governments, interested people, and businesses.

Monday, June 7

Registration 7:00am - 5:00pm

Welcome and Breakfast

See map on back cover for room locations.

7:00am - 8:30am

Grand Ballroom

Morning Concurrent Workshops

8:45am - 11:00am

Using Waste Composition Studies as a Tool for Expanding Your Recycling Program

Twilight

Waste generation is one of the significant environmental impacts of our daily operations. In assessing the opportunities of any recycling program (business, city, county, etc.), it is important to quantify the various components of our waste/recycling stream, evaluate the effectiveness of the current recycling program, and identify areas for improving both the current and future recycling efforts. Using the data collected during a waste study, you can identify ways to reduce waste, enhance recycling efforts, and determine the potential for cost savings. Studies can be done on any type of waste, and there are a number of different ways to conduct them, such as visual waste audits, waste characterization, and desktop audits. Come and learn from subject-matter experts on how to develop and conduct waste audits and waste composition studies to improve the effectiveness of your program. This session will include hands-on approaches and how to's on conducting a composition study to improve the effectiveness of your program.

Speakers: Aaron Burman, Resource Recycling Systems; Kate Gregory, Environmental Protection Agency; Gretchen Newman, Washington State Department of Ecology. *Moderator:* Herb Dreo, CAFR

Electronics Recycling

Rainbow

Making Sense of E-Recycler Certifications—If you represent an e-scrap recycler, collection program, or a large quantity generator, this panel will help you sort through the confusing array of new certification programs now becoming available. R2, e-Stewards, ISRI/RIOS, and ISO 14001 certifications will be discussed.

State Electronics Challenge (SEC)—The State Electronics Challenge (SEC) is a new opportunity available to state agencies, local governments, colleges, universities and public schools within EPA Region 8 to reduce the environmental footprint of their computer assets, and in return receive free one-on-one technical assistance, web-based resources, webinar opportunities, and reporting and measurement tools to spur innovative pollution prevention approaches to managing their computer assets. The SEC has been successfully piloted in a 10-state region in the Northeast. Come hear how your agency (or your customers' agencies) can get involved. For more information about the SEC, go to: www.stateelectronicschallenge.net

Speakers: John Lingelbach, Decisions & Agreements, LLC; Lynn Rubinstein, Northeast Recycling Council; Sarah Westervelt, Basel Action Network. *Moderators:* Dag Adamson, Lifespan Technology Recycling; Anne Peters, Gracestone, Inc.

Rocky Mountain Organics Council

Sunset

How the Seal of Testing Assurance program can assist Colorado Composters; Why Composting Marketing Programs Fail; Colorado Department of Transportation - Policy - Specifications - Projects.

Speakers: Ron Alexander, R. Alexander Associates, Inc.; Mike Banovich, Colorado Dept. of Transportation. *Moderator:* Bob Yost, A1 Organics

Household Hazardous Waste

Skyline

Come learn what is new on the horizon for Household Hazardous Waste. Speakers will share information on Colorado's Expired Medication Take Back Program, solvent reclamation, the potential for mercury thermometer residential and commercial recycling programs, and the current challenges of CFL recycling. Attendees will also learn about recent HHW statistics, lessons learned, issues and diversion opportunities.

Speakers: Greg Fabisiak, Colorado Dept. of Health and Environment; Juri Freeman, SERA; Mike Gayer, Curbside HHW Collections; Andy Jung, Veolia Environmental Services; Lisa Skumatz, SERA. *Moderator:* Shirley Garcia, City & County of Broomfield

Luncheon

11:00am - 1:00pm

Grand Ballroom

Welcome Jon Quinn, City Council President Pro Tem, Steamboat Springs

Keynote Speaker Jim Evanoff, Yellowstone National Park

"Sustaining Yellowstone National Park: A 138-Year Journey"

Yellowstone National Park created the "Greening of Yellowstone" concept in 1995. Since then, the park has made remarkable progress in promoting sustainable practices and advancing sound environmental stewardship initiatives. This has been accomplished through the fostering of partnerships, coupled with a very aggressive education and outreach component to over three million annual visitors. Evanoff will focus on the challenges of collaborating with both public and private entities to ensure success in instituting unique environmental programs, including a very successful and innovative recycling program.

Bio: Evanoff is the Environmental Protection Specialist for Yellowstone National Park. His career with the National Parks Service spans three decades; he has been stationed at Yellowstone since 1988.

CAFR's Recycling Poster Contest Winners All students in Colorado public and private schools and youth organizations were invited to participate in the Colorado Association for Recycling's 4th annual recycling poster contest. Twelve winners were selected for their artistic talent and commitment to the environment. Join us in recognizing those students able to attend the presentation.

Afternoon Concurrent Workshops

1:00pm - 2:30pm

Product Stewardship

Twilight

Product stewardship can help save taxpayers money and protect the environment by incorporating lifecycle costs into the product purchase price. During the first half of this session PSI Founder and Executive Director Scott Cassel, along with PSI Senior Associate Sierra Fletcher, will discuss PSI's Principles of Product Stewardship that helped guide the growing movement, with producers playing a primary role within the context of shared responsibility for product management. Scott and Sierra will discuss how the movement has taken hold in the US and how stakeholders can work together in Colorado to reduce product impacts. They will provide an overview of product stewardship activities in the United States, including electronics, thermostats, batteries, paint, and pharmaceuticals, and offer suggestions for steps Colorado can take in the coming year.

In the second half of the session Anne Peters of Gracestone, Inc. will discuss Colorado's experience with e-waste legislation (Colorado's first attempt at Extended Producer Responsibility) followed by a facilitated discussion about the emerging Colorado Product Stewardship Council. Come find out how you can be involved and help plan how this new group will: Educate state and local officials, private organizations and waste haulers on the concept of product stewardship; improve communication about this issue within the recycling, solid waste, and household hazardous waste management communities, other interested parties, and relevant government agencies and departments; raise awareness of existing product stewardship programs with household hazardous waste management agencies and other applicable programs and parties; help CAFR formulate policy positions related to product stewardship legislation.

Speakers: Scott Casel, Product Stewardship Institute; Sierra Fletcher, Product Stewardship Institute; Anne Peters, Gracestone, Inc. *Moderator:* Hilary Collins, Boulder County Resource Conservation

Sustainability in the National Parks Roundtable

Rainbow

This will be an informal yet informative roundtable discussion. Come and talk to Jim Evanoff one-on-one about lessons learned in the national parks and other innovative program ideas.

Speaker: Jim Evanoff, Yellowstone National Park. *Moderator:* Teresa Kurtz, Iowa Recycling Association

Rocky Mountain Organics Council

Residential Curbside Organics - Overcoming the Challenges; RMO Annual Meeting.

Sunset

Speaker: Charlotte Pitt, Denver Recycles/City of Denver. *Moderator:* Bob Yost, A1 Organics

Engaging Latinos in Zero Waste

According to the U.S. Census Bureau, Latinos made up 20% of Colorado's population in 2008. By 2025, the percentage will grow to 25%. Learn how to tap into the power of this culture to create a Zero Waste future. This session will dispel myths and offer tools for engagement. A long-time Latino activist will share his experience in breaking down barriers to become an influential voice for Zero Waste in Longmont, and Eco-Cycle will share their success in implementing effective outreach in targeted Latino neighborhoods.

Skyline

Speakers: Gina Balesteros, AdHoc Creative Concepts; Daniel Benavidez, Suffuse U.S.A.

Moderator: Cynthia Ashley, Eco-Cycle

Tour

3:00pm - 5:00pm

Saving the West from Waste: Zero Waste at the Steamboat Ski Area

This tour showcases the Zero Waste efforts at the ski resort's base-area facilities, restaurants, and service areas. It includes a discussion of a base-area pilot composting project and a presentation highlighting the grass roots efforts of the Steamboat Springs community to be more sustainable.

Hotel Lobby

Cost: \$10

CAFR Fundraising Gala

6:00pm - 11:00pm

Take the free shuttle and enjoy an evening of fun, food, entertainment, and networking. Consider this a must-participate opportunity that will meet even your wildest expectations. All proceeds directly fund CAFR programs. The evening includes dinner and refreshments provided by Rex's American Grill. CAFR is pleased to have New Belgium Brewing Company as an event sponsor--providing additional refreshments for the evening.

Free shuttles will be provided from the Sheraton Steamboat Resort to the Steamboat Springs Community Center at 5:30pm, 5:45pm and 6:00pm. Shuttles will return to the Steamboat Sheraton Resort at 10:00pm, 10:30pm and 11:00pm. Additionally, city transit buses leave the Stockbridge Station, adjacent to the community center, every 20 minutes starting on the hour.

Cost: \$40

3R Ramblers - The gala will feature music from CAFR's own 3R Ramblers—recycling the best of the oldies! Come and dance to music provided by Susie Gordon, Juri Freeman, and Alicia Archibald. Enjoy favorites like Rocky Top, My Walking Shoes Don't Fit Me Anymore, Crazy Arms, Runaway, and more! Opening entertainment provided by local band Jebus.

Steamboat Springs Community Center

CAFR Fundraising Gala - Monday, June 7, 6:00pm
The community center is a beautiful public building along the Yampa River Core Trail system and was the first commercial LEED building built in Northwest Colorado. It was placed on the site with minimal impacts to the natural ecology while restoring important animal habitat near the Yampa River and innovative techniques were used in the design of the foundations and walls.

Tuesday, June 8

Registration 7:00am - 2:00pm

Welcome and Breakfast

See map on back cover for room locations.

7:00am - 8:30am

Grand Ballroom

Concurrent Sessions I

8:45am - 10:15am

Recycling Markets Forum

Twilight

The regional and national economy continues to impact the current market for recycled commodities. Key experts with knowledge of paper, plastic, glass and steel will gather to provide their high-level perspective on their specific commodity and participate in facilitated dialogue on their combined perspectives on the regional, national and global recycling markets.

Speakers: Greg Folmar, Otto; David Keeling, Steel Recycling Institute; Paul Smith, Owens Illinois; Tim Towndrow, International Paper; Gerri Walsh, Ball Corporation. *Moderator:* Jerry Powell, Resource Recycling

Social Media 101

Rainbow

Wondering how Facebook, Twitter, and other social media sites play into your overall marketing mix? Feeling inundated by viral components and how they can overtake your limited marketing staff? This session provides an overview of social media components, how they compliment your traditional marketing medium, and case studies from recycling and green programs on how to utilize these mediums successfully.

Speakers: Leslie Baer, Mountain Muse Communications; Chris Bergman, Kinard Cares School; Juliet Mullen, Kinard Cares School; Nicole Mullen, Kinard Cares School; Becca Walkinshaw, Gallegos Sanitation. *Moderator:* Michelle Kincheloe, Dex One

Zero Waste Events & Venues: How To's and Lessons Learned

Sunset

It's almost expected; your event or venue will be green, with low or no waste generation. What processes have to be altered to fit into a zero waste scheme? Is zero waste even possible and how is it measured? Listen to zero waste event and venue veterans offer how-to's and tips to manage vendors, optimize recycling and composting stations and buy green, while quantitatively tracking their successes.

Speakers: Jennifer Bohn, Boulder County Resource Conservation; Dave Epstein, Twin Enviro Services; Liz Wahl, Steamboat Ski and Resort Corporation; Scott Yeager, Aramark. *Moderator:* Luke Vernon, Eco-Products

Concurrent Sessions II

10:30am - Noon

Community Recycling: Planning and Strategic Partnerships

Twilight

Kate Bailey of Eco-Cycle will kick off this panel discussion with a presentation on the results of the Eco-Cycle report entitled "Stop Trashing the Climate," providing a research-based perspective on what communities can do to combat climate change with Recycling and Zero Waste programs. The City of Louisville will provide a municipal perspective on the process, challenges and successes of contracting with a hauler for universal recycling and curbside compost collection. Finally, Mickey Barry of Angel of Shavano Recycling and CAFR Board Member, will speak about the challenges of rural recycling in Colorado and the key partnerships necessary to building a successful rural recycling program.

Speakers: Kate Bailey, Eco-Cycle; Mickey Barry, Angel of Shavano Recycling; Tom Phare, City of Louisville. *Moderator:* Anne Mudgett, Yampa Valley Sustainability Council

Legislative Update

Rainbow

During this session we will be reviewing the 2010 legislative session and talking about how to prepare for next year's session. If you want to be involved in shaping the future of recycling in Colorado, then be sure to attend this legislative update.

Speakers: Annmarie Jensen, Jensen Public Affairs; Linda Newell, Colorado State Senator. *Moderator:* Scott Hutchings, Waste Management

Zero Waste Business Case Studies

Sunset

You've implemented recycling at your workplace, and may have reduced waste generation considerably, but how can you formulate a goal around zero waste? Is that really possible, and what does it involve? The businesses presenting in this session have worked hard to achieve successes in this realm, and will share with you an overview of how best to start, implement, measure and track a zero waste program. You'll have the opportunity to ask questions of the speaker panel regarding your own challenges and how to manage for success.

Speaker: Jennifer Bohn, Boulder County Resource Conservation; Brian Gaboriau, Colorado Dept of Public Health/Environment. *Moderator:* Ashley Cantrell, City of Aspen

Luncheon

Noon - 2:00pm

Grand Ballroom

Keynote Speaker Jerry Powell, Resource Recycling

Powell will share his perspective on the state of recycling in 2010 and beyond.

Bio: Powell is the owner of three magazines (Resource Recycling, Plastics Recycling Update and E-Scrap News) and editor of Resource Recycling. He aids in the management of two annual conferences, The E-Scrap Conference and Exhibition, and The Plastics Recycling Conference and Exhibition. Both conferences are the world's largest in their fields. Previously, Powell founded and managed a recycling consulting firm for a decade and founded and managed a recycling business in Portland, Oregon, for more than eight years. He is a past three-time chair of the board of the National Recycling Coalition and the three-time chair of the board of a state recycling association.

CAFR Excellence in Recycling Awards

Presented in recognition of innovation and dedication to recycling in Colorado.

- City of Lone Tree - Outstanding Outreach-Municipality
- EarthWake Club, George Washington High School - Outstanding Outreach-Educational Institution
- Councilman Paul Lopez, District 3, City and County of Denver - Outstanding Elected Official
- Gallegos Sanitation - Outstanding Business Recycling/Diversion Program
- City of Colorado Springs Street Division - Outstanding Government Recycling/Diversion Program
- Jeanette Papp - Outstanding Volunteer of the Year
- Liz Wahl, Steamboat Ski & Resort Corporation - Recycler of the Year
- Michelle Kincheloe, Dex One - Lifetime Achievement
- Steven M. Foss, Curbside Recycling Indefinitely - Lifetime Achievement

Silent Auction Closes

Concurrent Sessions III

2:00pm - 3:15pm

Community Recycling: Single Stream Collection Systems and Education

Twilight

This panel will focus on the collection systems, education and outreach necessary to implement a successful single stream recycling program. Jim Doherty of Waste Management will present about single stream from a MRF operator's perspective. Dale Ekart of Eco-Cycle will share his experience coordinating collection systems and education for a wide range of businesses in Boulder County. Jim Frey of Resource Recycling Systems will speak about implementing single stream recycling in a rural area.

Speakers: Jim Doherty, Waste Management; Dale Ekart, Eco-Cycle; Jim Frey, Resource Recycling Systems. *Moderator:* Anne Mudgett, Yampa Valley Sustainability Council

Approaches to Measurement of MSW and Materials Management

Rainbow

Come hear the latest on collecting and measuring recycling and diversion data. Two states will share their stories of what they are doing to collect and measure their data, what strategies are working for them, and what they think the future has in store for communities trying to calculate their recycling and diversion rates. EPA headquarters will give us an overview of Re-trac and WARM, and update us on their approaches. We will also briefly recap discussions held in Colorado and within EPA Region 8 states.

Speakers: Jennifer Brady, Environmental Protection Agency; Larry Christley, State of Tennessee, Department of Environment and Conservation; Gretchen Newman, Washington State Department of Ecology. *Moderators:* Ron, Lillich, Environmental Protection Agency; Marjorie Griek, CAFR

The Many Faces of Reuse

Sunset

Reuse of unwanted materials can play a vital role in helping a community or business achieve their waste diversion goals while benefiting others. Hear from a panel of experts on how they operate their reuse organizations, solicit donations of unwanted materials, and get those materials back into the hands of those who need them. Learn how Resource Area for Teaching (RAFT) turns materials from businesses into hands-on learning supplies for teachers and students; how Providers' Resource Clearinghouse employs vocational trainees to refurbish and redistribute millions of dollars worth of goods and supplies to human-service providers; and how Center for ReSource Conservation has achieved a 12% diversion growth for their reusable building materials program, making more affordable building materials available to the public.

Speakers: Shaun LaBarre, Center for ReSource Conservation; Karen Terry, Providers' Resource Clearinghouse; Stephanie Welsh, Resource Area for Teaching. *Moderator:* Dianne Beal, Hunter Douglas

Closing Remarks

3:15pm - 3:30pm

Grand Ballroom

Closing remarks; Silent Auction winners announced. Snacks will be served.

Tour

4:00pm - 5:30pm

Twin Enviro Services Milner Landfill

Hotel Lobby

This tour highlights the variety of on-site disposal options at the landfill, including a home reuse yard, metal and e-waste collection and recycling, asbestos/special waste disposal, and regional composting facility. Attendees will also learn about aspects of the landfill that make it unique, such as the liquid waste solidification basin and the state-of-the-art liner, as well as the landfill's commitment to sustainability and the community. Shuttle departs from the Sheraton Steamboat Resort at 3:45pm and returns at 5:30pm. Or meet at 4:00pm at the landfill located 11 miles west of Steamboat Springs on Highway 40.

Cost: Free

Visit the Silent Auction Before Noon on Tuesday...

Or this cruise liner is leaving without you! CAFR's fundraising silent auction benefits CAFR events and programs. It is a fun opportunity for Summit attendees to try and out-bid each other on coveted items, such as a seven-day cruise to any destination of your choice! Other items include:

- Two tickets to box seats at a Nuggets or Avalanche game at the Pepsi Center
- One ton of rubber Forever Mulch
- Two one-day lift tickets to Winter Park
- Green Cone bio digester
- Handmade wood salad bowl
- 50 sq. ft. of cellular window shades
- And much, much more... Check it out!

Your Feedback Counts!

Please take a moment to fill out your Summit evaluation. A paper form is available at the registration desk or an electronic version of the evaluation will be distributed via e-mail to all attendees after the conference. Please let us know what you think and if you have any suggestions for next year.

Sustainability at the Sheraton Steamboat Resort

A few of the sustainable practices at this year's Summit:

- A recycle bin in each guest room, a compost bin in each kitchen, front-of-the-house composting (for clients like us)
- The Sheraton recycles all paper, glass, plastic, and cardboard
- For some of your breakfast and lunch options, CAFR has chosen organic-farmed eggs; antibiotic- and hormone-free bacon; freshly brewed shade-grown, fair-trade coffee; Colorado trout; and local farm field greens
