

Sponsorship Opportunities for the **COMPOST OPERATION TRAINING COURSE** Fort Collins, CO • November 8-12, 2021

Get your Company in front of students dedicated to careers in the compost industry who are investing time and money to attend this training

A 5-day, 40-hour course features lectures, hands-on activities and field trips taught by leading composting professionals and Educators.

With over 30 trainings conducted, the COTC program has an outstanding reputation; many students proclaim it **“the best course ever taken.”**

Designed for 30-40 attendees, the course is not only for public and private composting facility employees, but also consultants, regulators, educators, marketing representatives and those looking to start their own compost operation.

Attendees flock to the COTC program; courses within the last 3 years have routinely **SOLD OUT!**
